Notice of Non-Compliant Amendment (37 CFR 1.121)

Continuation of 4(e) Other: the amendment is not in compliance with the revised amendment practice 37 CFR 1.121 effective July 30, 2003 because deletion of five characters or fewer (i.e. the, a, etc.)can not be easily perceived by strikethrough therefore double bracketing should be used. (1) The current status of all of the claims in the application must be given in a parenthetical expression following the claim number using only one of the following seven status identifier: (original), (currently amended), (canceled), (withdrawn), (new), (previously presented) and (not entered). Canceled and not entered claims must be indicated by only the claim number and status, without presenting the text of the claims. (2) The text of all claims being currently amended must be presented in the claim listing with markings to indicate the changes that have been made relative to the immediate prior version. The changes in any amended claim must be shown by underlining (for added matter) or strikethrough (for deleted matter) with 2 exceptions: (1) for deletion of five characters or fewer, double brackets may be used (e.g., [[error]]); and (2) if strikethrough cannot be easily perceived (e.g., deletion of number "4" or certain punctuation marks), double brackets must be used (e.g., [[4]]). Only claims of the status "currently amended," and "withdrawn" that are being amended, may include markings. (3) The text of pending claims not being currently amended, including withdrawn claims, must be presented in the claim listing in clean version, i.e., without any markings. Any claim text presented in clean version will constitute an assertion that it has not been changed relative to the immediate prior version except to omit markings that may have been present in the immediate prior version of the claims. (4) A claim being canceled must be listed in the claim listing with the status identifier "canceled"; the text of the claim must not be presented. Providing an instruction to cancel is optional. (5) Any claims added by amendment must be presented in the claim listing with the status identifier "(new)"; the text of the claim must not be underlined. (6) All of the claims in the claim listing must be presented in ascending numerical order. Consecutive canceled, or not entered, claims may be aggregated into one statement (e.g., Claims 1-5 (canceled)).
